LMS MEETING
FOR 8/3/2009

**3135
PUBLIC NOTICE**

On Monday August 3rd, 2009 the 2nd and final review of the draft proposal for the 2010 Local Mitigation Strategy will be held at the Bay County Emergency Operations Center, 544 Mulberry Avenue, Panama City, FL 32401. Meeting will begin at 5 PM Central Standard Time (CST). The public is encouraged to participate and provide comment on the plan and the planning process, which is designed to reduce those future damages caused by natural disasters and that pose significant threats to property and life. The plan includes general assessments of the vulnerabilities to natural hazards found in each of Bay County's incorporated and unincorporated jurisdictions.

Local Mitigation Strategy meeting scheduled

A meeting aimed at reducing damage caused by natural disasters is scheduled for 5 p.m. Aug. 3 in the meeting room of the Bay County Emergency Operations Center at 644 Mulberry Ave.

The meeting will be the second and final review of the 2010 Local Mitigation Strategy draft proposal. The plan includes an assessment of vulnerabilities to property and life-threatening natural hazards throughout Bay County. Public input is encouraged.

For more information, call Sid Busick at 784-6167.

FOR \$175,000. PLEASE KEEP ROAD DRAINAGE IMPROVEMENT
(No. 24).

MINUTES: LMS Update Meeting

March 4, 2009 - Bay County Fairgrounds

(See attached list of attendees)

Sid Busick, Bay County Department of Emergency Management, started the meeting, and led the introductions and discussion of the roles of the update team participants. Absent from the meeting were representatives from Lynn Haven and Mexico Beach. No citizens from the general public attended.

Joy Duperrault, Florida Division of Emergency Management, offered guidance on the basic requirements for updating the plan. The present LMS Plan expires on July 31, 2010. We will be required to submit a formal letter and submit the plan on CD to the State office by July 31, 2009 to allow ample review time in case modifications are necessary. The State Planner will then prepare a formal package to submit to FEMA. If the Plan expires prior to our ability to have the update approved, we could be excluded from applying for hazard mitigation grants. Joy provided copies of the crosswalk checklist that the County and municipalities will be required to use, and discussed the document - FEMA Guidance for LMS Plans - that will assist in preparing the LMS update.

Joy covered several items that are important for us to include with the update:

- 1) The current mitigation list should include reference to the associated Goal and Objective from the LMS, plus the potential cost and the specific hazard it addresses.
- 2) The rationale/process for selecting the rank order of the mitigation projects should be discussed (we could create a form that assigns a type of point system and include it in an appendix).
- 3) Risks and Vulnerabilities should be discussed in detail.
- 4) A complete description of each mitigation measure should be included (what the mitigation project will accomplish, problems that have resulted or could result because the measure has not been implemented, etc.)
- 5) Overall, what physical growth and development has taken place over the past 5 years since the last plan update?
- 6) A discussion of the progress in local mitigation measures that have been implemented or funded since the last update.
- 7) What mitigation priorities have changed? Why?
- 8) In the Plan Maintenance Section or where it says... "over the next five years we will..." Look at what was stated as intentions for this time period. Discuss. Were those statements realistic? Did we accomplish what we intended? If not, what changed?
- 9) Check for integration between the old plan and the new plan.
- 10) Public participation is important. Be sure we have measures to try for more public involvement.

Joy will find out if there is new software available to use in updating the plan since the 20/20 software is no longer available.

Joy introduced Jo Penrose who is AICP registered and will be replacing her in her present position as a mitigation planner for FDEM. Jo will be assisting us with the requirements for the LMS update.

Tita expressed concerns about the length of time allowed to prepare the plan as the County has adopted the LMS Plan as the Floodplain Management Plan under the Community Rating System (CRS) Program. The updated Floodplain Management Plan is due to be adopted by October 1, 2009. She is hoping that the LMS Team will move more quickly than the allowed time period in order to have the LMS Plan approved by October. She will check with Lori Lehr, the CRS administrator, to determine the possibility of a time extension for the Floodplain Management Plan.

POSTED AT:

CALLAWAY CITY HALL

AND CALLAWAY PUBLIC WORKS DEPARTMENT

25 minutes

To participate in the Conference Call:

1. At 1:30 PM dial 1 888-808-6959
2. when prompted enter the Conference Code 8509146425# (be sure to enter the #sign after the conference code)

AGENDA ITEMS FOR OCTOBER 15, 2009

From the municipalities:

1. I will need Comprehensive Plan and/or Land Development Regulations Goals, Objectives and Policies that support the LMS. (I can give you the County's copy if that will help them)
2. Prepare a draft copy of the Resolution that officials will sign adopting the LMS once it is approved by FEMA.
3. Prepare a very general map (maybe GIS can do it with the general area of SRLs and RL properties.
4. A brief description of their CRS program and what outreach programs are being done to prevent or minimize flooding in their area.
5. Any stormwater improvement projects? Is there a stormwater CIP? If so, I need a copy. Any mitigation projects going on right now from own funding that don't appear on the official "Bay County Mitigation Initiative Prioritization List (revised August 7, 2009)"?
6. Is there a separate Floodplain Management Ordinance? Have they established a "freeboard" regulation, or any other floodplain management regulations that exceed the FEMA minimum requirements?
6. A brief history of each municipality...when founded, etc.

Sid,

Please send Thea Austin a copy of the final pages in the original LMS. Those are the ones that describe the hazards for each jurisdiction and all of the terrible maps. I believe you have it on a disk somewhere. If so just send her the whole disk. She said she only has the first 51 pages.

Several conference calls with various LMS Team Members took place between January 2010 and May 2010 to discuss the final additions to the LMS after comments were submitted by the State review agency and FEMA.

The next regular LMS meeting is scheduled for July, 2010.
