

4.0 The County shall be responsible for traffic engineering review and cost of installation of speed humps, including paving, signing and pavement markings. The Bay County Board of County Commissioners may establish an annual budget for the purpose of installed speed humps. Once the annual budget has been fully encumbered for a given budget year, the following alternatives are left as options to the affected area residents who desire traffic control speed humps:

4.1 Waiting list (first come, first serve) for next budget year

4.2 Municipal Service Benefit Unit (MSBU) Funding

4.3 Neighborhood Association Funding
