The above-referenced property has been identified as having significant damage from Hurricane Michael, and needs repair. At our last inspection on June 27, 2022, this property was determined to be in violation of Bay County Code Section 17-2 in the form of an unfit/unsafe structure, debris and overgrowth. The following actions must be taken to correct the above stated violations:

- The unsafe conditions of the mobile/manufactured home must be corrected. The repair and remodeling of mobile/manufactured homes requires materials and design equivalent to the original construction. A detailed action plan and scope of work consistent with the mobile home manufacturer's specifications will be required before building permits may be obtained and work can begin.
Alternatively, the structure may be demolished, and all debris removed from the property. A demolition permit must be obtained from Bay County Builders Services prior to beginning work.
All trash and debris must be removed from the property and disposed of lawfully.
All overgrown grass or weeds must be cut or mowed.

This correspondence will serve as official notification that the above stated violations must be corrected before August 16, 2022.

This case is scheduled to be presented to the Special Magistrate for Bay County at the hearing on August 17, 2022, at 1:00pm CST at the Bay County Government Center located at 840 W. 11th St., Panama City, Florida. If found in violation, the Magistrate may order the violations be corrected. Fines, liens or special assessments may be placed on the property for noncompliance and/or the costs of abatement, repair or demolition by the County.
